1.6.1 REQUESTED SERVICES

I. Project Information:

In Palestine, there is a significant need for professionals in the non-academic sector. Due to lack of investments and structural weaknesses in the TVET sector, the infrastructure and know-how in TVET institutions are deficient. At the same time the unemployment rate is high. A process to consolidate the responsibilities for TVET is needed. To create a central national entity, the Palestinian Authority (PA) established the NTC of Palestine in early 2020.

To support the PA in its systemic reform and modernization of the TVET system, the Government of Germany, represented by BMZ, has committed to grant funds for investments into TVET (Main Measures) with a supplementary commitment for Technical Assistance (Accompanying Measures). The Recipient of the project funds is the Palestine Liberation Organization (PLO), represented by the Ministry of Finance (MoF, the "Recipient").

The NTC will act as PEA. Both commitments shall be implemented as one project called the "Promotion of Vocational Education / Employability of Palestinian Youth in the Palestinian Territories" (hereafter "the Project"). Its duration is 5 years.

The overall development objective of the Project (**impact**) is to contribute to the improvement of the employment situation in the Palestinian Territories by means of labour market-oriented qualification offers in terms of quantity, quality, and institutions/infrastructure. The objective of the Project is to create the institutional and financial conditions for higher performance of the Palestinian TVET sector (**outcome**). The following outputs are foreseen:

- Output 1: The funding mechanism (TIME Fund) is established and operational.
- Output 2: The Leading Institute for TVET of the NTC in Nablus (TVET University) is established and functioning.

To support the newly established NTC, Measures of up to 17 Mio EUR are defined:

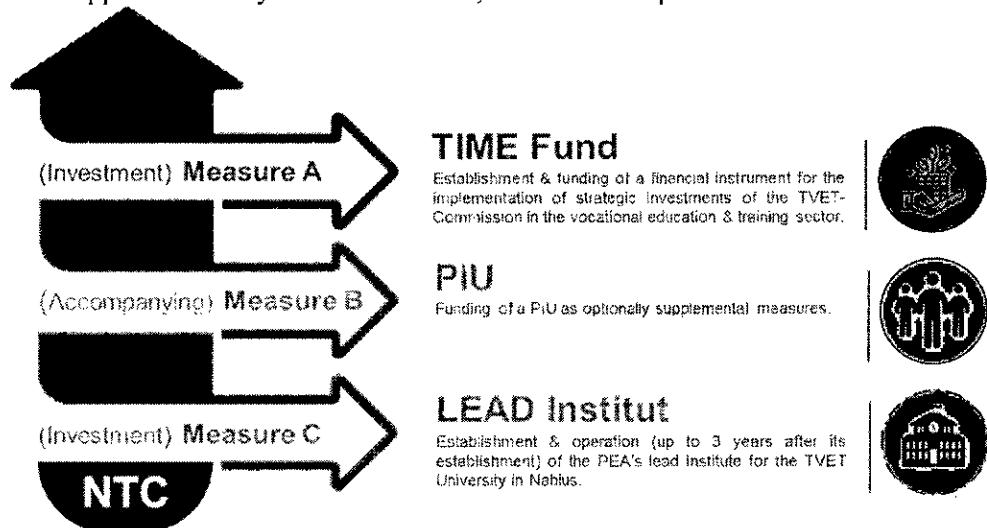

Figure 0-1: Intended (Investment & Accompanying) Measures with foreseen budgets

Investment Measure A – TVET Infrastructure Modernization & Equipment (TIME) Fund

To promote long-term and strategic investments for the TVET sector, the TIME Fund as a national financing unit of the NTC will be established to provide funds for existing TVET institutions for appropriate infrastructure, equipment and furniture including necessary consultancies. The aim is the TIME Fund being a full functioning institution under the NTC. To ensure long-term sustainability, it is intended to attract also funding from additional donors via the investment mechanisms. Eligible investments for selected TVET institutions are:

- establishment of new TVET qualifications,
- extension and/or upgrade of TVET institutions in underserved/ underprivileged areas, and
- replacement of entities (refurbishment not feasible within economic limits).

Accompanying Measure B – Project Implementation Unit (PIU)

A PIU, integrated in the NTC, will provide administrative & technical support to overcome structural challenges and to increase efficiency, quality & speed of implementing the KfW-financed project. The PIU will support the NTC in management & implementation, particularly in proper and efficient execution of fund management and in the establishment and operation of the LEAD institute. The PIU’s role spans across:

- whole project TIME cycle: establishment - operational mode.
- setting up of LEAD institute: supporting concept & design – O&M

Under PIU’s responsibility is also to coordinate co-funding by other donors.

Investment Measure C – LEAD Institute

The TVET University shall have special functions (“System Wide Services”, SWS) necessary for a structured TVET sector which are so far not / not sufficiently provided and shall be further developed with NTC). By providing these services, the TVET University is to assume a bridging function between the management level of the NTC as the respective policy maker and the operational level of the TVET providers interacting also closely with the TIME Fund.

The central LEAD Institute has a TVET Research Center (TRC) as a strategic NTC unit for the West Bank and Gaza taking on higher-level, structural tasks. The infrastructure investment in a functional building serves administration and broader functions with additional facilities, e.g. research, training facilities, etc.

➔ **A reassessment of fund allocation between the investment measures will be carried out to ensure that funds are used efficiently and in time.**

II. Requested Services under this Assignment:

- to establish and empower a fully functional PIU to effectively manage the project in a sustainable manner.
- to facilitate informed discussions on the LEAD Institute of the TVET University in Nablus.

Efficient management of the assignment in close cooperation with the main stakeholders is considered key to meet the defined objective. Therefore, the Assignment is organised in three different work stages (hereafter called “Stages”) as per the descriptive overview of the different Stages:

SECTION V – KfW POLICY – SANCTIONABLE PRACTICE – SOCIAL AND ENVIRONMENTAL RESPONSIBILITY

1) Sanctionable Practice

The PEA and the Contractors (including all members of a Joint Venture and proposed or engaged Subcontractors) must observe the highest standard of ethics during the Tender Process and performance of the Contract.

By signing the Declaration of Undertaking the Contractors declare that (i) they did not and will not engage in any Sanctionable Practice likely to influence the Tender Process and the corresponding Award of Contract to the PEA's detriment, and that (ii) in case of being awarded a Contract they will not engage in any Sanctionable Practice.

Moreover, KfW requires to include in the Contracts a provision pursuant to which Contractors must permit KfW and in case of financing by the European Union also to European institutions having competence under European law to inspect the respective accounts, records and documents relating to the Tender Process and the performance of the Contract and to have them audited by auditors appointed by KfW.

KfW reserves the right to take any action it deems appropriate to check that these ethics rules are observed and reserves, in particular, the rights to:

- (a) reject an Offer for Award of Contract if during the Tender Process the Bidder who is recommended for the Award of Contract has engaged in Sanctionable Practice, directly or by means of an agent in view of being awarded the Contract;
- (b) declare misprocurement and exercise its rights on the ground of the Funding Agreement with the PEA relating to suspension of disbursements, early repayment and termination if, at any time, the PEA, Contractors or their legal representatives or Subcontractors have engaged in Sanctionable Practice during the Tender Process or performance of the Contract without the PEA having taken appropriate action in due time satisfactory to KfW to remedy the situation, including by failing to inform KfW at the time they knew of such practices.

KfW defines, for the purposes of this provision, the terms set forth below as follows:

Coercive Practice The impairing or harming, or threatening to impair or harm, directly or indirectly, any person or the property of the person with a view to influencing improperly the actions of a person.

Collusive Practice An arrangement between two or more persons designed to achieve an improper purpose, including influencing improperly the actions of another person.

Fraudulent Practice

The promising, offering, giving, making, insisting on, receiving, accepting or soliciting, directly or indirectly, of any illegal payment or undue advantage of any nature, to or by any person, with the intention of influencing the actions of any person or causing any person to refrain from any action.

Any action or omission, including misrepresentation that knowingly or recklessly misleads, or attempts to mislead, a person to obtain a financial benefit or to avoid an obligation.

Obstructive Practice Means (i) deliberately destroying, falsifying, altering or concealing evidence material to the investigation or the making of false statements to

investigators, in order to materially impede an official investigation into allegations of a Corrupt Practice, Fraudulent Practice, Coercive Practice or Collusive Practice, or threatening, harassing or intimidating any Person to prevent them from disclosing their knowledge of matters relevant to the investigation or from pursuing the investigation, or (ii) any act intended to materially impede the exercise of KfW's access to contractually required information in connection with an official investigation into allegations of a Corrupt Practice, Fraudulent Practice, Coercive Practice or Collusive Practice.

Sanctionable Practice Any Coercive Practice, Collusive Practice, Corrupt Practice, Fraudulent Practice or Obstructive Practice (as such terms are defined herein) which is unlawful under the Financing Agreement.

2) Social and Environmental Responsibility

Projects financed in whole or partly in the framework of Financial Cooperation have to ensure compliance with international Environmental, Social, Health and Safety (ESHS) standards (including issues of sexual exploitation and abuse and gender based violence). Contractors in KfW-financed projects shall consequently undertake in the respective Contracts to:

- (a) comply with and ensure that all their Subcontractors and major suppliers, i.e. for major supply items comply with international environmental and labour standards, consistent with Applicable Law and regulations in the country of implementation of the respective Contract and the fundamental conventions of the International Labour Organisation (ILO) and international environmental treaties and;
- (b) implement any environmental and social risks mitigation measures, as identified in the environmental and social impact assessment (ESIA) and further detailed in the environmental and social management plan (ESMP) as far as these measures are relevant to the Contract and implement measures for the prevention of sexual exploitation and abuse and gender-based violence.
